

JILTED LOVER'S DEED.

PROMINENT KENTUCKIAN ATTEMPTS SUICIDE.

Shot Himself in His Sweetheart's Home—Young Woman Is the Daughter of the President of the Louisville & Nashville Railroad—Lover Preston Thornton Louisville, Ky., May 17.—Preston Thornton, a member of one of the most prominent families in the state and South, lies at the home of Milton H. Smith, president of the Louisville & Nashville railroad, suffering from a self-inflicted and possibly mortal bullet wound in the chest. That he made an attempt upon his life in the parlor of the Smith mansion is about all the information obtainable as to the circumstances surrounding the affair, because of the extreme reticence of all in any way connected with young Thornton or the Smith family. Soon after the shooting, a special train was hurriedly sent to Lexington to bring the family of the wounded man to his bedside. His father is Colonel R. H. Thornton of Lexington. His grandfather was the late General William Preston of this state, and the wife of General William Draper of Massachusetts. United States ambassador to Rome, is his aunt. The family is well known throughout the country. Preston Thornton is about 31 years of age. He is said to have paid assiduous attention for some time to Miss Nettie Belle Smith, the young daughter of M. H. Smith.

Late last night a statement was given out by a friend of the Smith family, the substance of which is as follows: Mr. Thornton has been for some time engaged to be married to Miss Nettie Belle Smith, daughter of Mr. Milton H. Smith. Recently the engagement was broken off. Mr. Thornton called at the residence of Mr. Smith and, after a few moments' conversation, in a fit of desperation pulled a pistol from his pocket and shot himself. The ball entered the body near the heart and the wound is probably fatal.

SYMPATHY FOR CUBA.

Enthusiastic Mass Meeting in Washington—Many Notables Present. WASHINGTON, May 17.—An enthusiastic audience of men and women, many of them well known in Washington, packed the Columbia theater to its doors yesterday afternoon at a great mass meeting held in behalf of the cause of the Cuban insurgents. The theater was appropriately decorated. Seated on the platform and participating in the exercises were Senators Gallinger and Allen, ex-Senator Butler of South Carolina, Rev. Hugh Johnson, pastor of the Metropolitan Methodist church; Rev. Howard Wilbur Ennis and a number of others identified with the interests of the insurgents. Senator Chandler sent a letter of regret, in which he said, among other things: "Without delay we ought to send a fleet to enter the harbor and an army to land upon the soil of Cuba, first, to protect the lives and property of American citizens, and, secondly, to stop the atrocious and uncivilized methods of warfare adopted by the Spanish generals."

When he reached this city to-day he lacked but two months and nineteen days of walking the 6,500 miles, and had raised \$4,693. He said he would easily finish the trip, and collect the balance of the money in a few days' less time than allotted him.

Running Out of Bulls.

CITY OF MEXICO, May 17.—The city government forbade any bull fight to be given yesterday. The authorities claim the bulls provided for the fight are so poor they do not justify the price of admission asked by the management. Enrique Merino, a Spanish bull fighter, has visited the famous bull breeding farms of Atenco and other places, and his judgment is that none of the bulls shown him were worthy of the ring. The poorness of the animals is getting to be a serious matter, and it begins to look as if bull fighting would stop for lack of animals to fight.

Leadville Mines to Be Reopened.

LEADVILLE, Colo., May 17.—An agreement having been reached among the owners of the principal mines to resume pumping, which was stopped last winter while the strike was on, the work will be started next week. This will result in the employment of from 1,000 to 1,500 men, with a strong probability that the number will reach 2,000 within the next six months. It is estimated by some of the mine owners that it will require thirty days of pumping before any men can be put to work. Then all the mines will be reopened as fast as possible.

For a Great Credit Company.

The company, as planned, is to have a capital of \$100,000,000, with the privilege of doing a business of \$2,000,000,000.

Made a Show of Themselves.

WASHINGTON, May 17.—The Logan-McCook controversy has started the gossip about the coronation of the czar. NEW CUBAN CRISIS.

PRESIDENT MCKINLEY MAY TAKE ACTION.

Reports of American Consuls in Cuba to the State Department Indicate a Most Despicable State of Affairs—Hundreds of American Citizens in Direct Distress.

WASHINGTON, May 14.—There was a sudden and violent outbreak of Cuban sentiment yesterday at the capitol, and during the early hours the drift of opinion was strongly toward speedy and radical action by both Congress and the executive, but later there was somewhat of a reaction upon its becoming known that the President, while keenly alive to the situation and anxious to learn everything possible that could guide his conduct of our Cuban and Spanish relations, felt that further information was necessary, and that for the immediate present the question was not one of recognition of the belligerency or independence of the Cuban insurgents, but of relief for the American citizens destitute and helpless in the towns of the Queen of the Antilles.

The event of the day was a report to their colleagues by the sub-committee of the foreign relations committee which examined the state department Cuban reports. This statement, though not given to the public, was so far disclosed in character as to give rise to a good deal of excited comment among senators and members. The report, based upon facts, presented by the United States consuls in Cuba, it is said, brings out in strong language the destitution which exists not only among the Cubans, but among the Americans and pacificos now on the island, who were driven from their farms and into the towns by Weyler's orders and thereby prevented from supporting themselves.

The report was prepared by Senator Davis and Foraker, the Republican members of the subcommittee; Senator Morgan, the Democratic member, declining to participate in it. The report confirms the newspaper reports as to the situation of affairs in the island, and even goes farther in depicting a deplorable situation than do most of the newspaper stories. Especial stress is laid upon the condition of American citizens in the island, of whom it is positively stated that there are hundreds in a starving condition and most wretchedly clothed. Deaths of Americans from starvation are daily reported. They are scattered in all parts of the island and are shown no consideration whatever because of their American citizenship. They are generally persons who reside on the plantations, but who have been driven from their homes to the towns, and who, being among strangers and without employment, are compelled to subsist on almost nothing. They are not allowed to return to their plantations, even to pick berries or secure the least article of subsistence. They are theoretically under the care of the Spanish army, but the army is without a commissariat. They have no means of leaving the island. Their condition is pronounced wholly deplorable.

No Universal Postage Stamp.

WASHINGTON, May 15.—The movement to secure the adoption of a universal stamp by the Postal congress has collapsed. SULTAN IS MODEST.

WANTS ONLY \$50,000,000 AND THESSALY.

No Armistice Unless Proposed Terms Are Agreed To—Powers Will Never Let the Sultan Have Thessaly—Greek Army Ordered to Abstain From Hostilities.

CONSTANTINOPLE, May 17.—The porte has replied officially to the note of the powers, and declines to agree to an armistice until the following conditions are accepted:

The annexation of Thessaly, an indemnity of \$50,000,000 and the abolition of the capitulations.

The porte proposes that plenipotentiaries of the powers should meet at Pharsalos to discuss the terms of peace, and declares that if these conditions are declined, the Turkish army will continue to advance.

The demand for the annexation of Thessaly is based upon the fact that the province was originally ceded to Greece, on the advice of the powers, with the object of ending brigandage and Greek incursions into Ottoman territory, the porte believing at this time that the cession would attain these objects, but the recent incursions of Greek bands and the events immediately preceding the war have proved to the contrary. This is the substance of the reply.

The ambassadors met to-day to consider the porte's answer, which is regarded as raising an extremely grave issue. It is believed that representations will be made to the sultan personally to induce a modification of these terms, but it is foreseen that this will be very difficult, owing to the attitude of the powerful old Turk war party.

If the porte should prove obdurate a European conference is not improbable, although at present Russia is opposed to this.

It is regarded as quite certain that the powers will not consent to a retrocession of Thessaly. Even Germany is believed to be resolute on this point, because it would involve a violation of the Berlin treaty and imperil the peace of the Balkans.

Altogether the reply of the porte has caused the greatest surprise. It appears that during the discussion of the note from the powers by the council of the sultan's ministers news reached the council that 3,000 Greeks had landed at Panola and were marching to Janina with the intention of co-operating with other forces from Arta. This created a bad impression among the ministers.

LONDON, May 17.—The Times' correspondent at Athens says:

"To-day M. Ralli, the premier, visited the various legations and obtained assurances that the powers would undertake to prevent any offensive action on the part of the Turks, providing the Greek forces maintained a strictly defensive attitude. On this understanding, he immediately wired to the commanders of the three Greek divisions at Domokos, Sourpi and Arta, instructing them to abstain from all hostile action unless attacked by the enemy."

"The losses at Griboro were the heaviest since the beginning of the war. Seven officers were killed. Requisitions were sung to-day in all the churches, and the opposition papers accuse the government of wantonly sanctioning needless bloodshed."

LARSSA, May 17.—Edhem Pasha's plans for the capture of Domokos are being rapidly perfected. Reinforcements are arriving and all the Greek positions are carefully watched. The bad condition of the roads and the heavy rains delay the operations for which the Turkish officers are anxiously waiting, but a general advance began at dawn.

A number of Greek deserters who have been captured say that 25,000 Greeks are behind the fortifications and intrenchments at Domokos, but that the whole organization is rotten and the medical and transport services have completely collapsed. They say that for thirty-six hours the only ration was a half loaf, and that the forces are becoming demoralized and are deserting by the wholesale.

A Careless Man, a Match and Either Responsible for the Paris Disaster.

In order to be able to see the better he struck a match, when the vapors ignited and instantly spread to the hangings around the apparatus. Bellac and his assistant have been allowed their liberty provisionally. The inquiry into the cause of the disaster is now closed.
